Section 1 Identification						Section 6 Accidental Release Measures					
Product Number:	C2052					Sweep up and place in suitable (fiberboard) containers for reclamation or later disposal.					
Product Name:	Marble Chips (Calcium Carbonate)	Health:	0				Section 7 Handling and Storage				
Trade/Chemical Synonyms		Flammability	0				Keep container closed tightly. Suitable for an general chemical storage area.				
Formula:	CaCO ³	Reactivity	0				Section 8 Exposure Controls & Personal Protection				
RTECS:	FF9335000	Hazard Rating:	Least Slight Moderate High Extreme				Respiratory Protection: NIOSH approved dust mask				
C.A.S	CAS# 471-34-1		0	1	2	3	4	Gloves to prevent exposure to latex or vinyl			
						Mechanical: ☐ Hand Protection:					
						Ventilation: Local Exhaust: ☒ Eye Safety Glasses Side Shield					
Section 2 Component Mixture						Other Protective Equipment: Wear appropriate clothing to prevent skin exposure					
Sara 313	Component	CAS Number	%	Dim	Exposure Limits:	Section 9 Physical and Chemical Properties					
☐	Marble Chips (Calcium Carbonate)	CAS# 471-34-1	100 %	W/W	None Established	Melting Point: 825 Deg C Specific Gravity 2.83					
Section 3 Hazard Identification (Also see section 11)						Boiling Point: Information not available Percent Volatile by Volume: 0					
Generally not hazardous in normal handling, however good laboratory practices should always be used. Avoid long term exposure to skin or by inhalation.						Vapor Pressure: Information not available Evaporation Rate: 0					
Section 4 First Aid Measures						Vapor Density: Information not available Evaporation Standard:					
Generally not hazardous in normal handling, however good laboratory practices should always be used. Avoid long term exposure to skin or by inhalation.						Solubility in Water: Negligible Auto ignition Temperature: Not applicable					
FIRST AID: SKIN: Wash exposed area with soap and water. If irritation persists, seek medical attention.						Appearance and Odor: White, odorless solid Lower Flamm. Limit in Air: Not applicable					
EYES: Wash eyes with plenty of water for at least 15 minutes, lifting lids occasionally. Seek Medical Aid. INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen						Flash Point: Not applicable Upper Flamm. Limit in Air: Not applicable					
INGESTION: Give several glasses of milk or water. Vomiting may occur spontaneously, but it is not necessary to induce. Never give anything by mouth to an unconscious person.						Section 10 Stability and Reactivity Information					
Section 5 Fire Fighting Measures						Stability: Stable Conditions to Avoid: Heat					
Fire Extinguisher Type:	Any means suitable for extinguishing surrounding fire					Materials to Avoid: Strong acids, fluorine, aluminum, ammonium salts.					
Fire/Explosion Hazards:	None specified.					Hazardous Decomposition Products: Carbon oxides					
Fire Fighting Procedure:	Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and clothing.					Hazardous Polymerization: Will Not Occur					
						Condition to Avoid: None known					
Section 11 Additional Information											
						Acute: Dust may cause irritation to eyes, nose and throat. Chronic: None known. Target organs:					

None known. Conditions aggravated: Persons pre-existing disorders may be more susceptible

DOT Classification: Not Regulated

DOT regulations may change from time to time. Please consult the most recent version of the relevant regulations.
